A businessman by profession, and a staunch swayamsevak by passion, I'm driven by ambition to build and contribute towards developing an inclusive and equitable society. I was serving as the Director, Karnataka Renewable Energy Development Limited (KREDL), under the aegis of Ministry of Power, Karnataka. Hailing from a modest background, I was taught the importance of inclusivity, with 'Sabka Saath Sabka Vikas', being the family motto. Today two of my ventures - TravelsWorld and Nidhi Land Infrastructure stand tall with a combined annual turnover of more than Rs.500

crore, providing employment and livelihood to over 12,000 families, I was always encouraged to protect, nurture and celebrate our culture and ideology. Also, my family has enthusiastically participated in all pivotal elections in the coastal region.

The most trying times of my life were during the COVID-19 pandemic. Despite business hardships, my family ensured livelihoods for thousands of families both in Bengaluru and Mangaluru, making sure no one went to bed hungry. We provided ambulance services to everyone in need, across Karnataka. I often draw inspiration from the great leader, Dr. Martin Luther King, Jr., who said, “Life’s most persistent and urgent question is, ‘What are you doing for others?’” It is this ability to empathise & help each other that drives me to create opportunities, build enduring organisations, and ultimately make the world a better place to live in.

Family Background:

Sharaschandra was born into a traditional Billava family in the year 1970 to U. Madhava Suvarna and Kasturi Suvarna. His father was a school teacher by profession. He was known for imparting Bhagavad Gita lessons to children after school hours, which showcased the family’s dedication to Hindu culture and its values.

Growing up in such a household, Sharaschandra was also instilled with the values of philanthropy, from a young age. His family is well-known in the community for their willingness to lend a helping hand to those in need.

Today, as an accomplished industrialist and leader in his field, Sharaschandra's values of giving back to society and empowering individuals from all walks of life continues to guide his work.
